EDUCATION

University of California, Los Angeles

Bachelor of Science in Computer Science, Minor in Digital Humanities

Sep. 2022 – Dec. 2026

Los Angeles, CA

EXPERIENCE

Global Security Design & Engineering Intern

The Walt Disney Company

Jan. 2026 – Present

Glendale, CA

- Developed an automated Python pipeline that cleansed drone detection data from multi-sensor feeds and generated dashboards for internal stakeholders, reducing analysis turnaround by 6 hours.
- Programmed a VBA inventory system for 300+ items, replacing manual asset tracking with barcode-driven actions, real-time stock validation, 100% transaction logging, and automated low-stock alerts.
- Built a Python API for vendor prescreening in Asana, cutting manual processing time to under a minute per request by automating task routing, updates, and form-response synchronization.
- Engineered a Flask/SQLite kiosk app to automate R&D session tracking for 10 lab members with check-in/out, KPI dashboards, Asana sync, and Outlook CSV exports, reducing weekly reporting by 3 hours.

Undergraduate Research Assistant

University of California, Los Angeles

Oct. 2024 – Present

Los Angeles, CA

- Co-authoring a publication comparing 2 VR collaboration architectures across performance metrics from 40 participants.
- Delivered a Python web scraper to collect 1M+ community comments from SideQuestVR, Meta, and Reddit.
- Built a Python bot simulating 16 user behaviors to test catfishing risks and trace network data on two VR apps.

IT Risk Analyst Intern

Grant Thornton

Jun. 2025 – Aug. 2025

Los Angeles, CA

- Produced 3 audit-ready evidence reports across 30 IT control walkthroughs under SOX and NIST frameworks, supporting IT controls review and external auditor approval.
- Assessed 25 security and development controls across 15 systems to verify SOX compliance, delivering structured findings to the internal audit team ahead of year-end reporting.
- Created a Python script to flag changes across current and prior-year narratives, reducing review time by 1 hour.

Software Engineer Intern

Nora AI

Jan. 2024 – Apr. 2024

Irvine, CA

- Protected 20K+ users by resolving SQL injection and XSS vulnerabilities through incident response, deploying CAPTCHA, rate limiting, and input sanitization to eliminate active attack vectors.
- Developed RESTful search APIs in .NET Core (C#) with Redis caching, returning results in under 3 seconds.
- Engineered a full-stack blog platform in C# and React.js, raising monthly user engagement by 2,500+ users.

Systems Engineer Intern

Monterey Peninsula College

Sep. 2023 – Dec. 2023

Monterey, CA

- Led development of a peer-grading platform in PHP and SQLite, scaling to manage 1,000+ student submissions while implementing input validation to prevent parameter tampering and injection attacks.
- Deployed Python microservices for automated project distribution and custom CSV export, eliminating 8 hours of manual work for instructors weekly.
- Achieved 99.9% uptime by configuring SSL/TLS, firewall rules, and role-based access controls to harden the hosting environment and eliminate unauthorized access vectors.

Software Engineer Intern

Heafork

Jun. 2023 – Aug. 2023

Los Angeles, CA

- Eliminated manual deployment bottlenecks by building a CI/CD pipeline with GitHub Actions and Kubernetes, reducing a multi-step release process to a single automated trigger.
- Reduced internal attack surface by identifying and remediating 6 vulnerabilities across exposed services and misconfigured access policies, auditing infrastructure with Wireshark and Nmap.
- Constructed a Python bot for tracking 20+ employee work hours daily, integrating identity verification and timestamps to eliminate manual timesheet errors and reduce HR processing time by 4 hours.

TECHNICAL SKILLS

Languages and Frameworks: Python, TypeScript, JavaScript, Java, C#, C++, PHP, HTML, CSS, VBA, React.js

Technologies: Amazon Web Services, Git, SQL, Kubernetes, Docker, Nmap, Wireshark, Linux/Unix

Practices: CI/CD, Version Control, Agile Methodologies, Unit/Integration Testing, R&D Testing

Certifications: Google Cybersecurity Certificate, AT&T 2023 Technology Academy
